HEMAVATHI R **Junior Front-End Developer**

Chennai | hemavathitechnical@gmail.com | +91 89402 73421 | Linkedin

SUMMARY

Front-End Developer with 1+ year of experience building production-ready React.js interfaces using JavaScript, HTML5, CSS3, and Tailwind CSS. Experienced in developing responsive, reusable components, integrating REST APIs, optimizing frontend performance, and collaborating with designers and backend developers to deliver user-focused web applications.

WORK EXPERIENCE

Junior Front-End Developer *Oct 2025 - Present*

The Business Company (Chennai)

- Built and maintained responsive React.js interfaces for The Pure Bliss, including REST API integration, SEO, and performance optimization.
- Contributed UI development and refinements for Teak Heirlooms and Shilpa Vummiti.
- Collaborated with designers and backend developers to deliver reusable frontend features.

Front-End Developer Intern *Jun 2025 - Sep 2025*

The Business Company (Chennai)

- Developed reusable React.js + Tailwind CSS components and responsive landing pages.
- Fixed UI issues and collaborated using Git under senior developer guidance.

PROJECTS

Ledgie — Personal Income & Expense Tracker

React.js | JavaScript | Tailwind CSS | localStorage | Live Demo | GitHub

- Built a responsive income and expense tracker using reusable React components and custom hooks.
- Implemented transaction CRUD, filtering, form validation, and animated balance calculations.
- Persisted data with browser localStorage, added accessible confirmation dialogs, and deployed the app with Vercel using Git/GitHub.
